

## PEKA-Fix 1202 Verlegegitter, beiseitig schwachhaftend

Art.-Nr.: 120273

### Description:

Adhesion characteristics of this solvent-free acrylic glue system guarantees safe functionality for fixing of floors. The pressure-sensitive adhesive is characterized by a high degree of condensation-, aging- and plasticizer resistance. Covered is the glass fibre adhesive mesh with a about standing transparent PE foil.

### Area of use:

PEKA-Fix 1202 is a low tack bonded glass fibre adhesive mesh and is used for dry and complete fixing of standard floor coverings. Commonly used flooring backs can be applied for most surfaces with good absorbing capacity.

Note:

Not suitable for marble floors.

Art.-Nr.: 120273

### Technical Data:

<b>Category</b>	Double-sided adhesive cloth tapes
<b>Carrier</b>	Glass fiber fabric
<b>Thickness</b>	0,28 mm - 0,30 mm (ohne Liner)
<b>Adhesive</b>	Acrylic dispersion
<b>Liner</b>	PE film, transparent
<b>Temperature resistance 1h</b>	-30 °C to 80 °C
<b>Application temperature</b>	5 °C to 30 °C
<b>Peel adhesion</b>	ca. 1 N/50 mm (DIN EN 1939)
<b>Shear adhesion</b>	100 g/625 mm <sup>2</sup> (DIN EN 1943)
