

Orabond 1464

Art.-Nr.: 146489

Description:

This double-sided tape consists of a rayon carrier, layered on both sides with a rubber adhesive. The adhesive is exceptional because of its high transparency and aging resistance. The adhesive is lined with a double-sided silicone paper.

Area of use:

This highly rip-resistant tape is very suitable as an adhesive medium for the installation of carpet floors. This high quality carpet tape has an excellent colour stability and is therefore less likely to stain more sensitive floor surfaces.

Remark:

Not appropriate for artificial stone floors, marble or floor materials with a high plasticiser content.
