

PEKA-Alu 210

Art.-Nr.: 235586

Description:

PEKA-Alu 210 is a thin and flexible, horizontal and vertical tear resistant, aluminized polyester film with an acrylic adhesive.

Area of use:

PEKA-Alu 210 is preferentially used for protection of screen print frames, isolation and decorative applications.

Remark:

Properties:

- Good resistance against ageing and chemicals
- Excellent isolation against the impact of humidity and temperature

PEKA-Alu 210

Art.-Nr.: 235586

Technical Data:

Category	Single-sided adhesive aluminum and metallized tapes
Carrier	PET film, metallized
Colours	Silver
Thickness	0,06 mm (+/- 5 %)
Adhesive	Acrylic
Temperature resistance 1h	-40 °C to 120 °C
Adhesive power	3,2 N/cm (+/- 10 %)
