

PEKA-Mount 7415

Art.-Nr.: 721824

Description:

The double sided adhesive tape with foam carrier consists of a closed-cell and radiation crosslinked polyethylene foam. This is coated on both sides with a synthetic rubber pressure sensitive adhesive. The foam tape is covered with a white silicone paper. The adhesive is characterized by very high shear force values.

Area of use:

PEKA-Mount 7415 is ideally suited for the bonding of plastic profiles in the construction industry (Window construction) can be used. The pressure sensitive adhesive bonded even at low outside temperatures.

Remark:

Shear strength on steel at 23 °C:
500 g/12,5 x 12,5 mm | 40 N/25 mm (to AFERA 4012)

Technical Data:

Category	Double-sided adhesive foam tapes
Carrier	Polyethylene foam, closed-cell, irradiated
Density	70 kg/m ³
Thickness	1,60 mm
Adhesive	Synthetic rubber
Liner	Silicone paper, 80 g/m ² , white
Temperature resistance 1h	-20 °C to 70 °C (short term up to 90 °C)
Peel strength	32 N/25 mm nach 10 min 36 N/25 mm nach 24 h (to AFERA 4001)
Loop Tack	43 N/25 mm (to AFERA 4015)
